DECEMBER is a handcrafted floor lamp. Lighting up the dark, the lamp provides warm illumination and a comfortable atmosphere supported by the circular geometry and design vocabulary. The cylindrical stand offers stability and also storage tray for a book or cup of tea. A composition of three components – a body of a cylindrical stand, a rod and on top, a flat circular lamp head – made of aluminum parts combined with a crafted shade and LED light. All parts are powder coated with a black structured surface.
