

RIEN DRINKING GLASS

NEW TENDENCY

(200 ml) 76 × 86 mm

Ø 76

(300 ml) 81 × 110 mm

Ø 81

RIEN is a drinking glass, simultaneously delicate and stackable. The perfect glass for a drink at the bar, a wine or just some water. A cone-shaped, curved base gives RIEN not only its unique form, but also additional functionality: when the base is full, it measures exactly 4 cl. Its robustness and heat resistance originates from its material's properties: produced from borosilicate glass originally used in scientific research.

RIEN, 2015, Christian Metzner commissioned by NEW TENDENCY
Borosilicat glass, 200 ml, Ø 76 × 86 mm, 300 ml, Ø 81 × 110 mm
