257 × 257 mm

YUHI is a lamp for a table or the floor. The formal composition consisting of geometric surfaces is indirectly lit by an internally integrated organic light-emitting diode (OLED). The two-dimensional light produced by the thin OLED-module allows the light grey coated steel sheet to become a reflective source of light. Surface and light form a variable entity of two parts that graphically and spatially depict various modulations of light and shadow.

YUHI, 2015, Clemens Tissi commissioned by NEW TENDENCY

Powder coated aluminium, 257 × 257 × 257 mm, 7.4W OLED, 20V/230V, 2700K
